

Penobscot Valley Star Gazers

An Astronomical Society of Central Maine
and the Astronomical League

Gazers.org
Since 1990

Monthly meetings are held at John Bapst Memorial High School on the second Monday of each month at 6:30PM. Observing sessions, or star parties, are scheduled throughout the year for members, school classes, and the general public. Members receive the PVSG newsletter monthly and are eligible for discounts on popular astronomical magazines and other publications.

The [Penobscot Valley Star Gazers](http://Gazers.org), formed in 1990 to promote the sharing and enjoyment of astronomy, offers opportunity and education to all who are interested in the celestial pursuit. Members with little or no prior experience enjoy the opportunity of observing with veteran star gazers and find their way through the stars and into the hobby of astronomy.

The sky is the largest and most accessible part of our environment on a clear dark Maine night. The Penobscot Valley Star Gazers invite you to focus on its wonders. Anyone who views a planet or a galaxy through the eyepiece of a telescope carries away a deeper appreciation for the immense structure we call the universe.

Whether with the naked eye or with a telescope, come and share the excitement of stargazing with us.

For further information contact Alan Davenport, President at 942-0819 or Bill Shackelford, Treasurer, at 945-9497.

Membership includes the Astronomical League membership and journal [The Reflector](#), and optional discounts for subscriptions to [Sky & Telescope](#) and/or [Astronomy](#) magazines.

Dues/ Member Type (Check one)

- Regular \$18
- Family \$27
- Junior (under 18) \$7
